AI Innovation

AI for product development and innovations

Accelerate product development cycles and fuel innovation with AI-powered solutions.

Generative-AI for Virtual Assistants

Reduce wait times, personalize interactions, and empower your team with our next-generation virtual assistants.

AI Based Contract Management

AI Based Contract Management to automate tasks, ensure accuracy, and optimize your entire contract lifecycle.
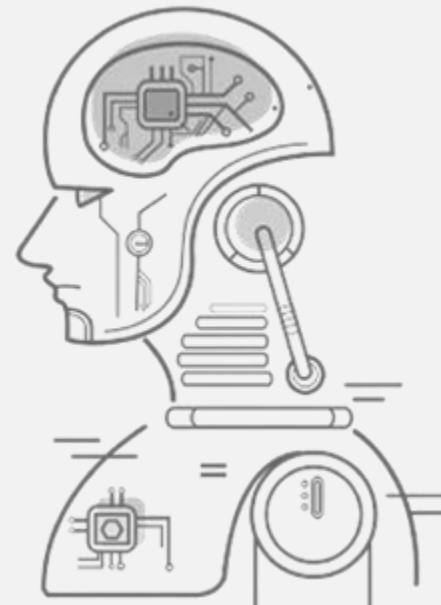

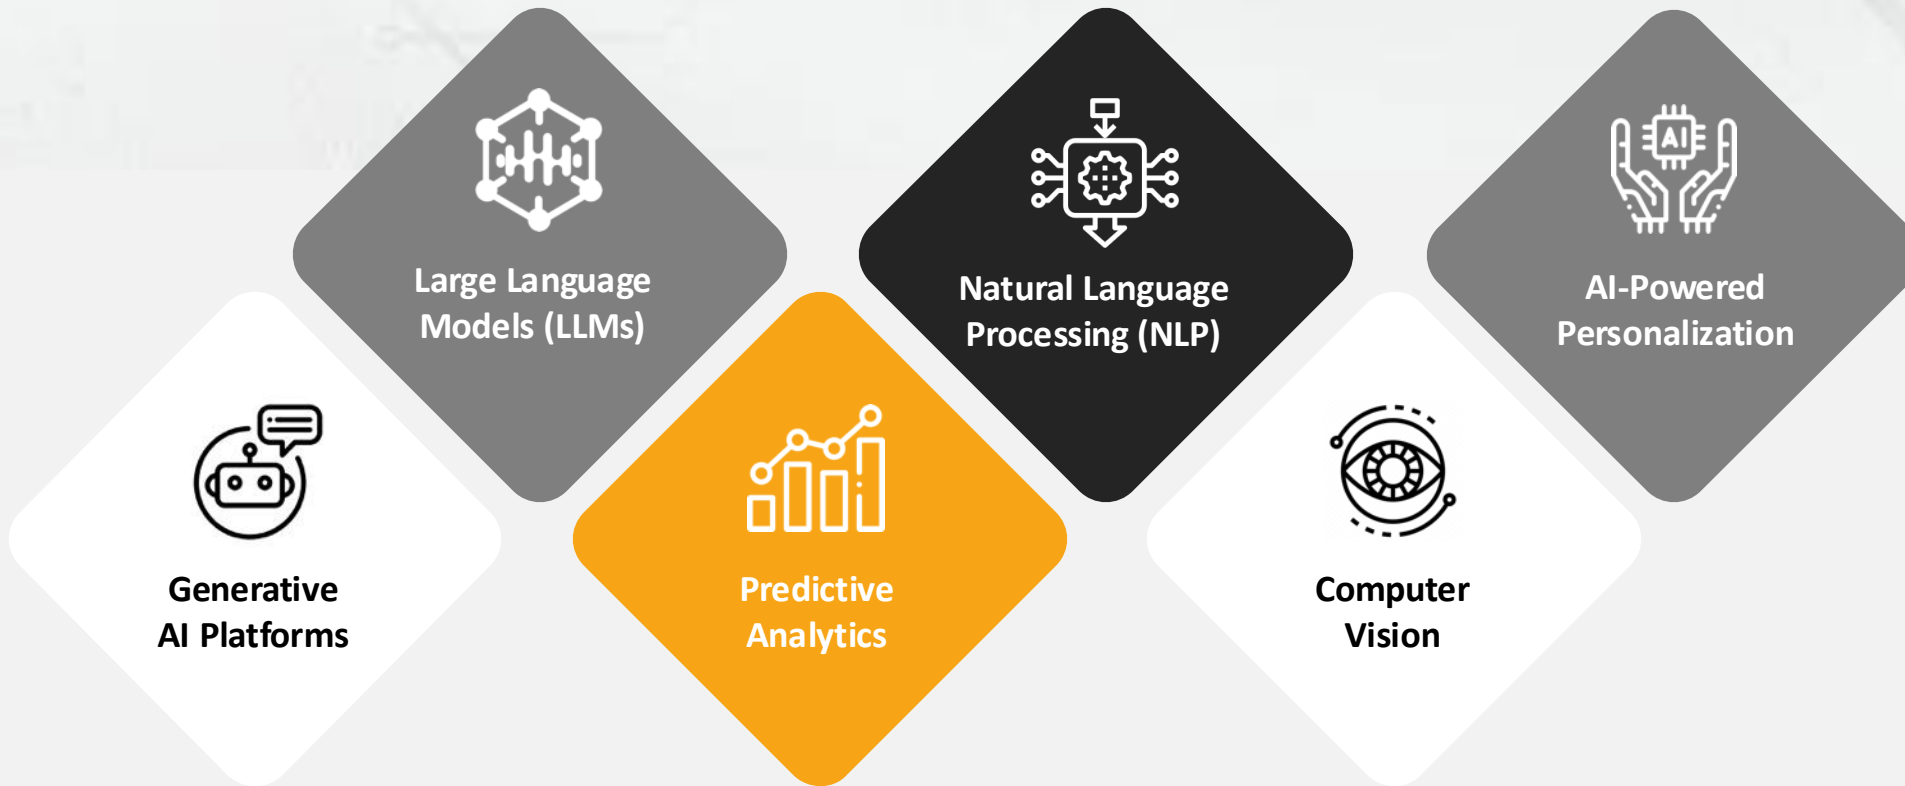

Revolutionize your development process, enhance customer interactions, and optimize operations with our cutting-edge AI solutions.
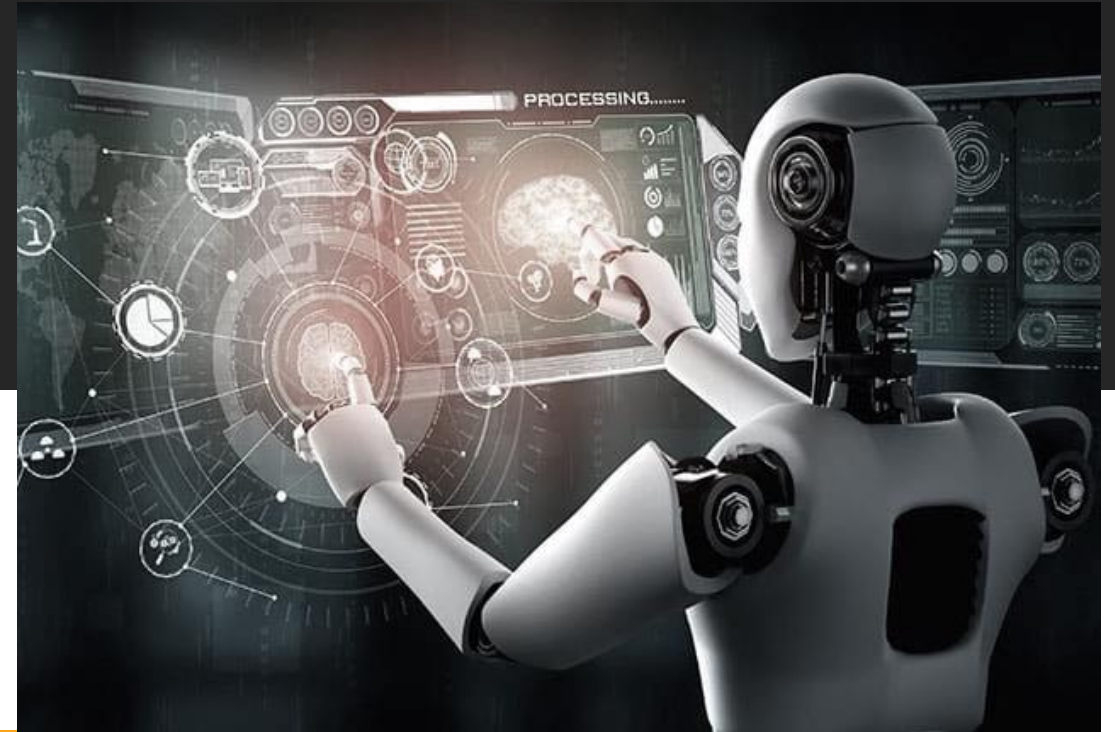

At Zelite, we are committed to leveraging the power of artificial intelligence to drive innovation and transformation across industries. Our AI innovations empower organizations to unlock new opportunities, optimize processes, and stay ahead of the competition in today's digital landscape.
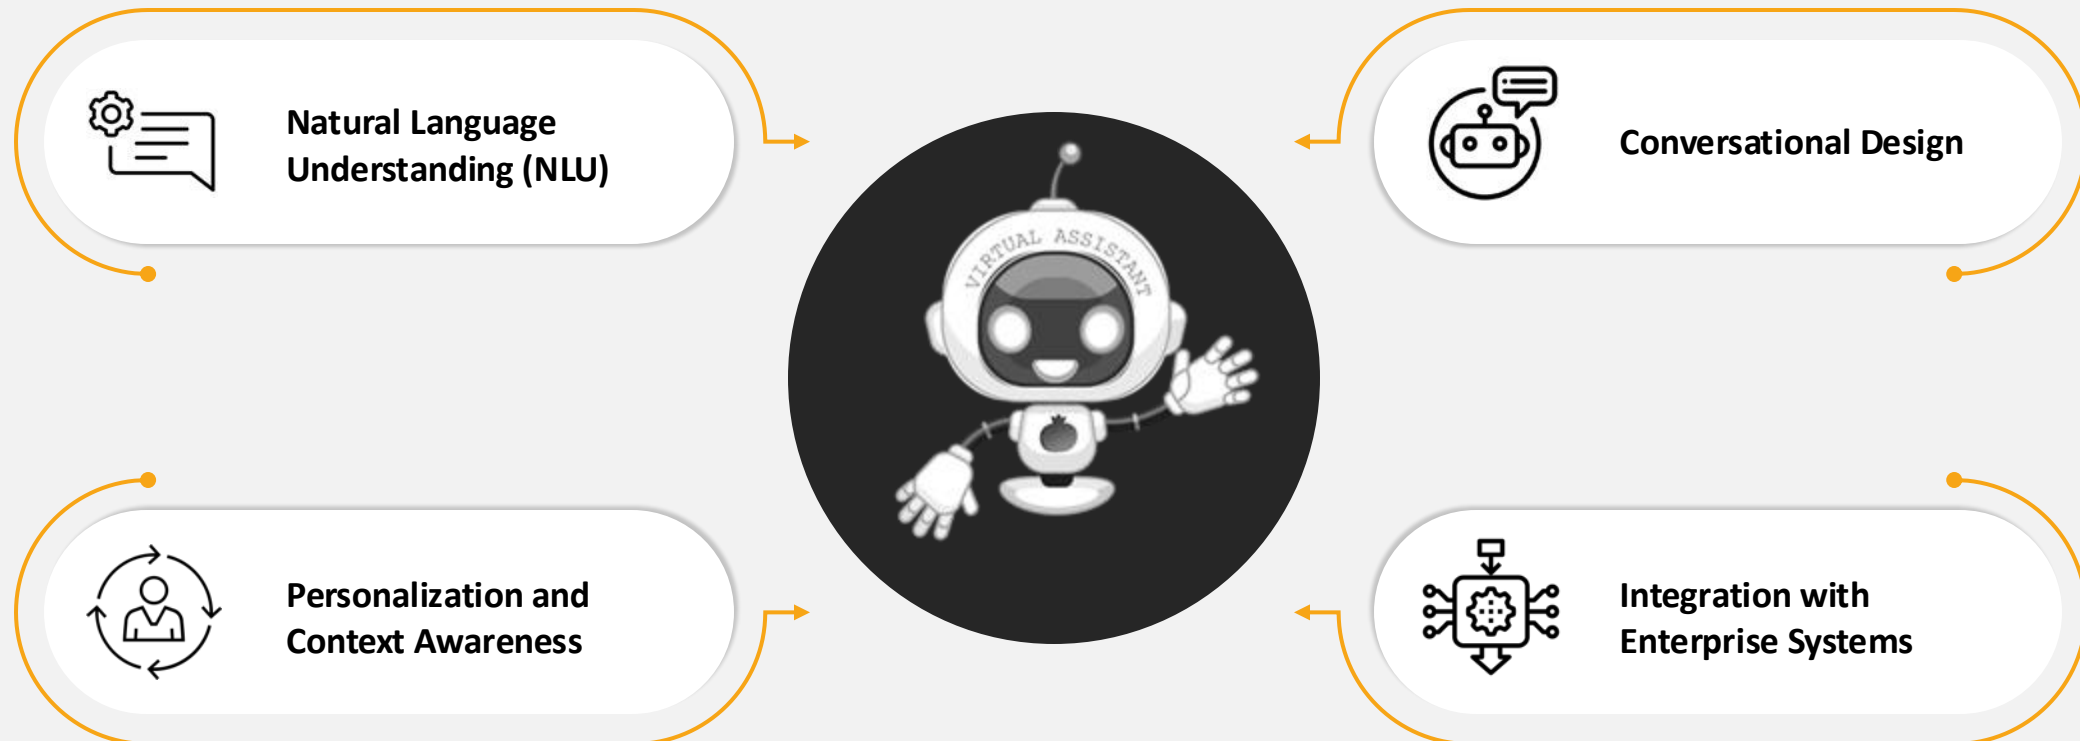

AI for Product Development & Innovation

Accelerate product development cycles and fuel innovation with AI-powered solutions. Leverage advanced algorithms and predictive analytics to gain actionable insights, streamline workflows, and bring innovative products to market faster.

AI Innovations

AI Based Contract Management

We leverage artificial intelligence to enhance contract management processes, enabling organizations to streamline document creation, negotiation, and analysis. Our AI-based solutions empower businesses to automate repetitive tasks, minimize risks, and gain valuable insights from contract data.
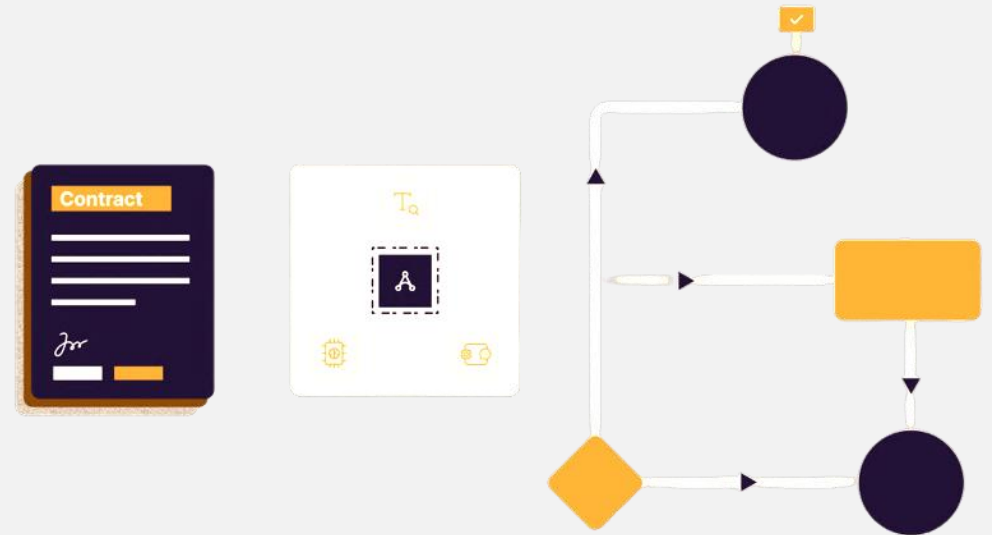

Document Automation

Streamline your contract creation process by leveraging AI-powered templates and workflows for automated document generation.

Contract Review & Analysis

Utilize natural language processing (NLP) algorithms to extract key clauses, identify risks, and analyze contract terms for compliance and accuracy.

Contract Lifecycle Management

Implement end-to-end contract lifecycle management to optimize creation, approval, version control, and renewal processes.

Predictive Analytics

Use advanced machine learning to analyze contract performance, forecast risks, and gain insights for better contract management.

Secure and Efficient Policy Information Retrieval: A Case Study with Gen AI

Solution

AI Virtual Agent (Chat Bot)

Zelite Solutions introduced an AI-powered virtual agent for a US insurance company, enhancing security, efficiency, and customer experience. With secure authentication and personalized interaction, the virtual agent streamlines information retrieval, reducing wait times and offering tailored responses based on individual policies.

> Customer Authentication - Customer Call, Virtual Agent Activation

> Customer Authentication Success - Authentication Process, Successful Authentication

> Information Inquiry - Policy Inquiry, Query Handling

> Clear and Concise Responses - Information Presentation, Additional Assistance

Streamlining Government Contract Management with AI

Solution

AI based Contract Management & LLM

Zelite Solutions introduced a Proof-of-Concept for a UAE government department, utilizing Large Language Models for AI-powered contract management. This solution automated contract analysis, improving efficiency, and enhancing risk detection by streamlining review processes and proactively identifying potential issues in contracts.

> Large Language Model (LLM)

> Contract Preprocessing

> Streamlined Review Process

> Anomaly Detection Engine

> User Interface (UI)
