Building a Document Management System: A Custom DMS for PEG

Solution

Custom Application Development, Document Management System (eDMS)

Custom Document Management System (DMS) for PEG, a leading engineering and contracting company, using .Net Core, Angular, and SQL. This solution streamlined document organization, retrieval, and collaboration, enhancing efficiency and allowing PEG to focus on core activities.

> Intuitive User Interface

> Granular Access Control

> Advanced Search Capabilities

> Version Control & Tracking

> Workflow Automation

> Document Annotation & Collaboration

> Pre-integrated with MS Office

> Comprehensive Reporting

Optimizing Production Flow with an Advanced Planning and Scheduling System

Zelite Solutions developed a custom Advanced Planning and Scheduling System (APS) for Amtek Auto Group, transforming their production flow with automated scheduling and real-time insights. The .Net-based system enhanced efficiency, reduced inventory costs, and improved customer satisfaction by optimizing resource utilization and ensuring timely deliveries.

> Master Planning and Scheduling

> Constraint-Based Scheduling (CBS)

> Capacity Planning

> Route Exploding

> Planning Capabilities Constraint

> Management and Analysis

> Execution Control
