Integration of Microsoft Dynamics 365 CRM & Cloud Telephony for a SaaS Company

Zelite seamlessly integrated Microsoft Dynamics 365 CRM with a cloud telephony system for a SaaS company, enhancing customer interactions and streamlining sales and support activities. Explore the benefits experienced by sales agents and customer support, including auto-routing of calls and streamlined workflows.

- Enhanced customer insights, automated call logging, seamless lead management for out-bound sales agents
- Quick access to customer information, efficient case management, streamlined follow-ups for inbound sales agents
- Auto Routing of Calls Using Round Robin Method
- Lead and Case Workflow Implementation

Solution

Dynamics 365 Sales Integration with VoIP & IVR System

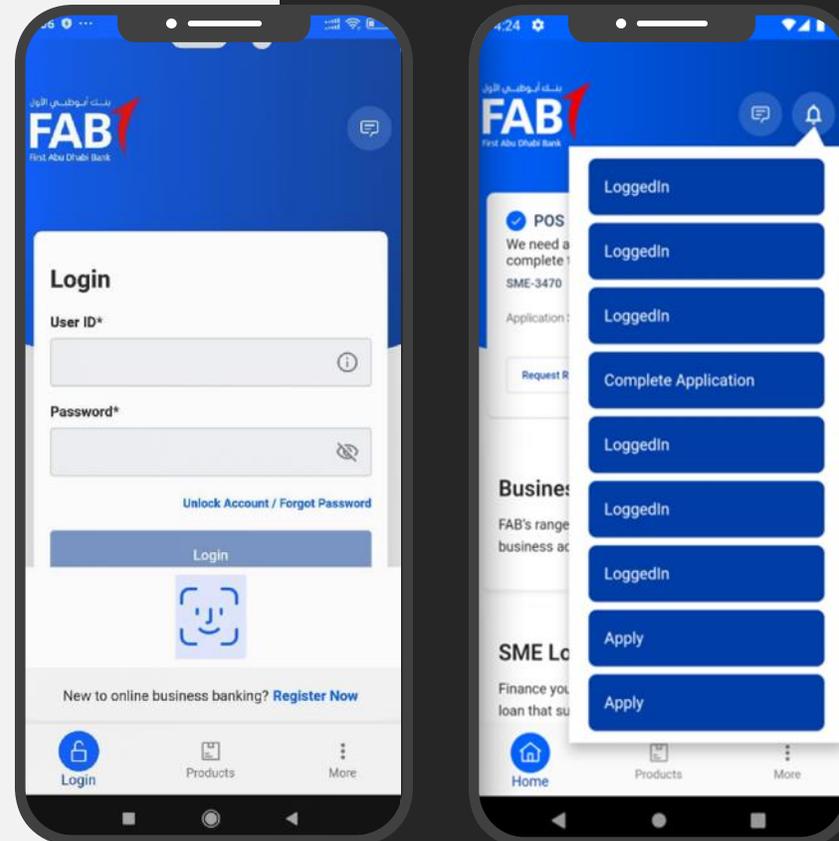

First Abu Dhabi Bank (FAB) Mobile Application using Flutter

Zelite Solutions collaborated with First Abu Dhabi Bank (FAB) to create a comprehensive mobile application using Flutter. This initiative aimed to enhance FAB's digital banking services by integrating the app with their core banking system, providing customers with a seamless & efficient banking experience.

- User Authentication
- Streamlined Loan Applications
- Comprehensive client dashboard
- Automated email and SMS notifications
- Document management system
- Integration with Core Banking System
- Security and Compliance
- User-friendly interface

Solution

Mobile App Development - Hybrid, Integration with UAE Pass

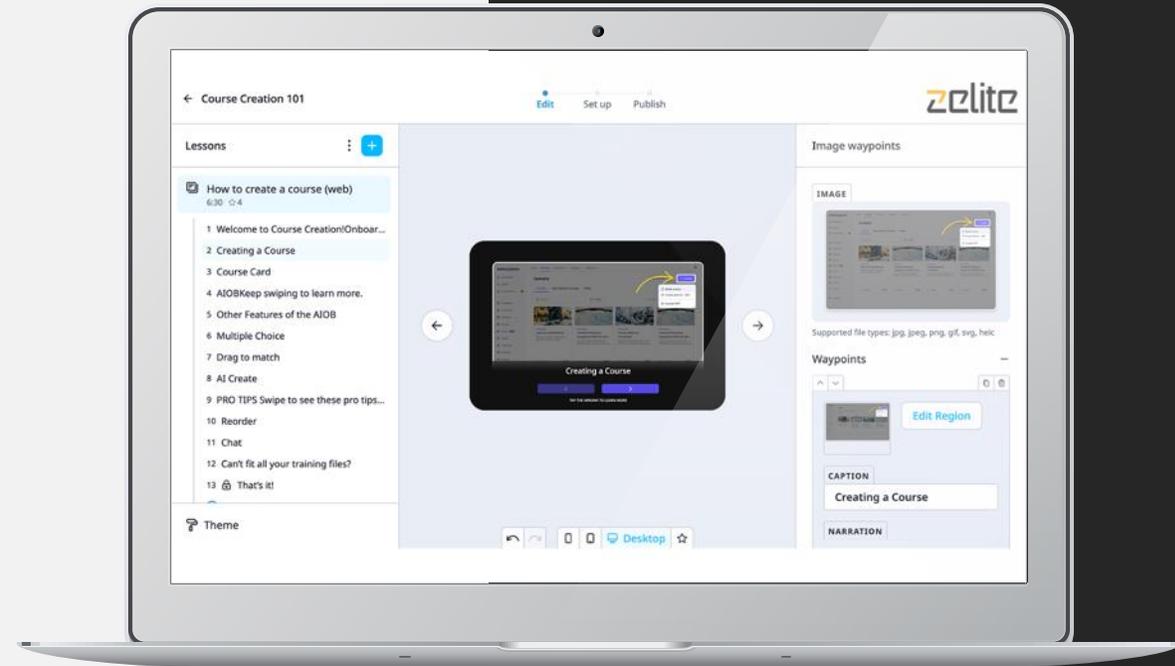

Building a Bridge to Effective eLearning with a Custom Authoring Tool

Zelite Solutions created a custom web-based authoring tool for a leading IT company using ASP.Net, DevExpress, HTML5, and MS SQL. This tool allows non-programmers to develop interactive eLearning courses, streamlining in-house training creation, saving time, and ensuring consistent, high-quality employee training.

- Intuitive Interface
- Reusable Content Libraries
- Interactive Course Creation
- SCORM Compliance
- Multi-device Compatibility

Solution

Software Product Development - Web-based Authoring Tool
