Microsoft Power Platform

We offer Microsoft Power Platform Services, combining Power Apps, Power Automate, and Power BI to streamline processes, drive innovation, and enable data-driven decisions for impactful results. With our expertise, organizations can maximize the potential of the Power Platform to achieve impactful results efficiently and effectively.

Power BI

Unlock data insights with interactive dashboards and reports to drive informed decisions and boost growth and efficiency.

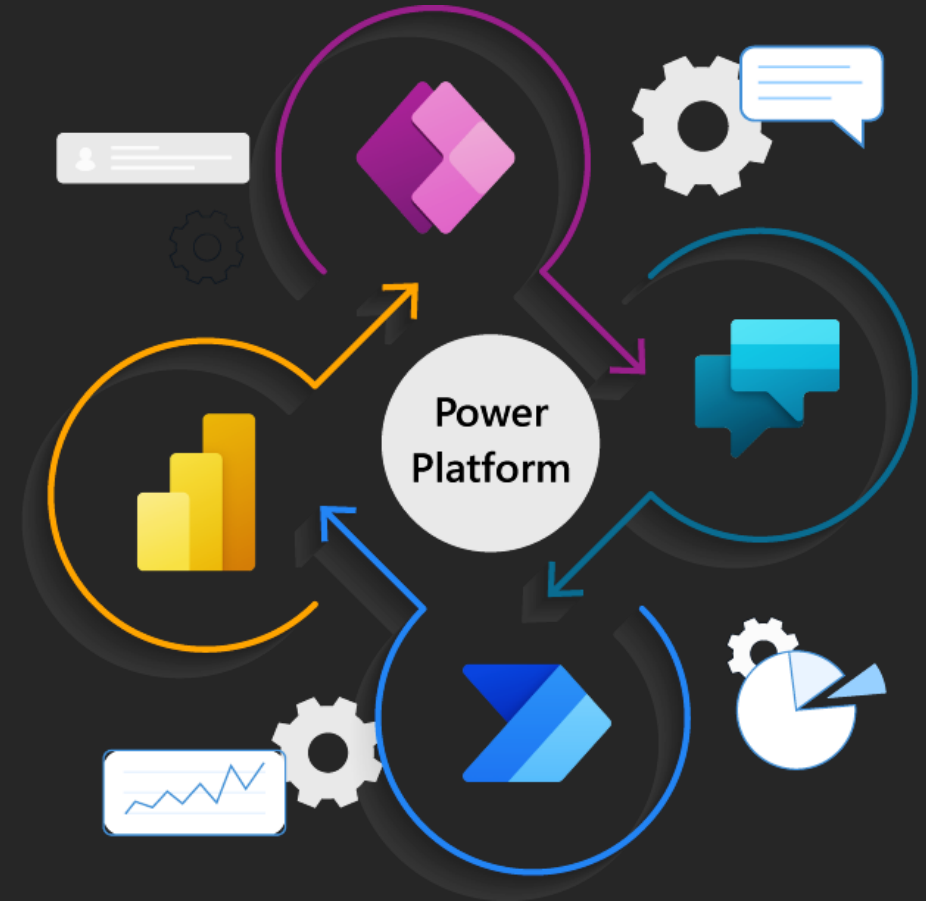

Power Apps

Develop and implement custom applications tailored to any business requirement, ranging from straightforward forms to intricate workflows

Power Automate

Power Automate streamlines tasks and processes, freeing up time and resources for strategic activities and boosting efficiency.

Our Service Scope

Unleash the power of low-code development for a more connected, automated, and data-driven business.

25+ PowerApps projects completed to date

6+ Years of PowerApps solution development expertise

01

Strategy and Consulting

We help you define your Power Platform strategy and roadmap, aligning it with your overall business goals.

04

Data Analytics & Reporting

We help you leverage Power BI to gain valuable insights from your data.

02

Application Development

Our experienced developers design and build custom Power Apps tailored to your specific needs.

05

Integration and Deployment

We seamlessly integrate Power Platform with your existing systems and ensure smooth deployment.

03

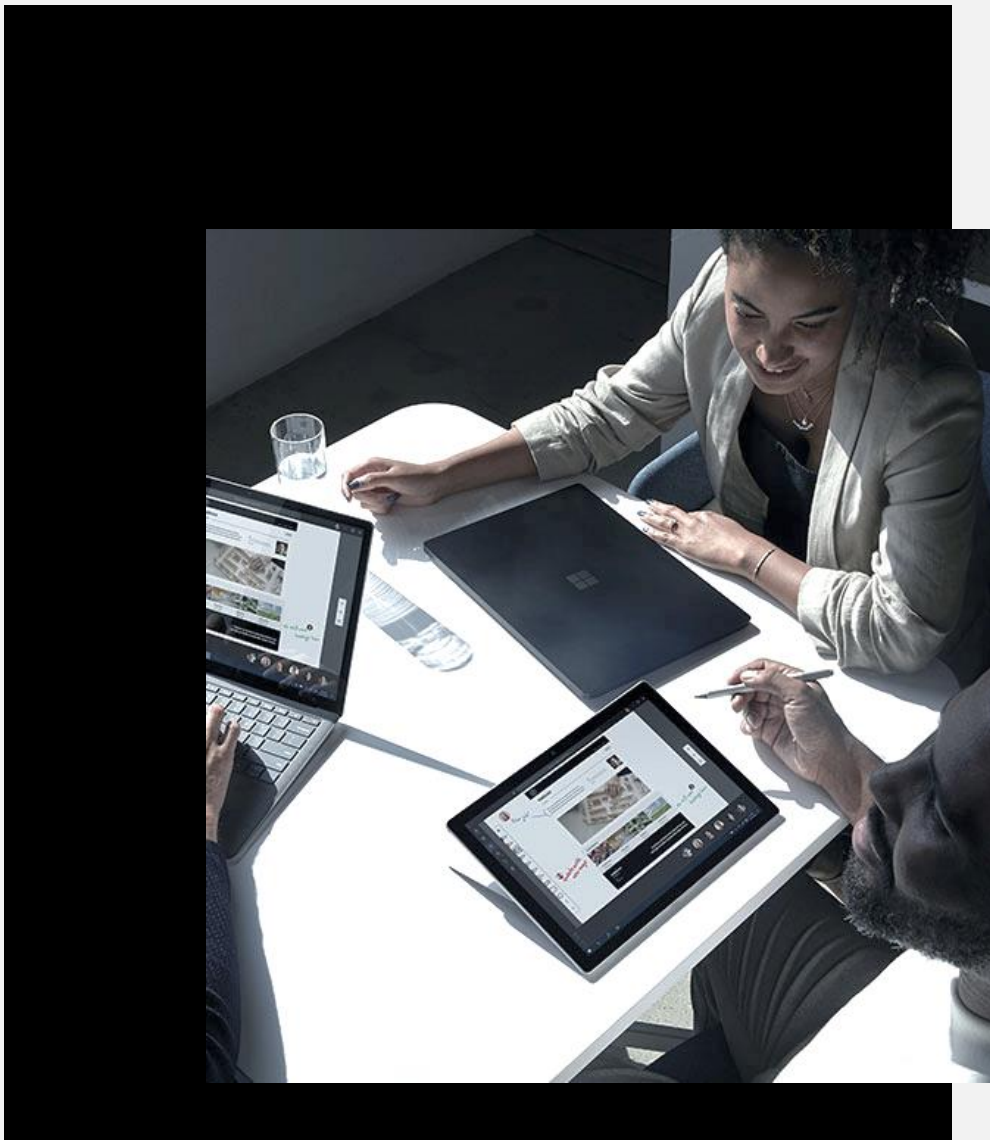

Workflow Automation

We automate manual tasks and streamline processes using Power Automate.

06

Training and Support

Comprehensive training and support to ensure your team is empowered to use Power Platform effectively.

Solve Any **Business Problem**

Transform your business with tailored solutions for finance, sales, HR, operations, and frontline workers. Create budgets, connect systems, build apps, modernize inventory, and boost efficiency on any device.

Finance

Start from any data source or simply describe your data to develop budgets, accurate forecasts, and comprehensive reports.

Sales & Marketing

Connect disparate systems to provide instant notifications and mobile access to product info and sales tools.

Human Resources

Build easy-to-use apps that help employees stay connected, track data, share information, and take action.

Operations

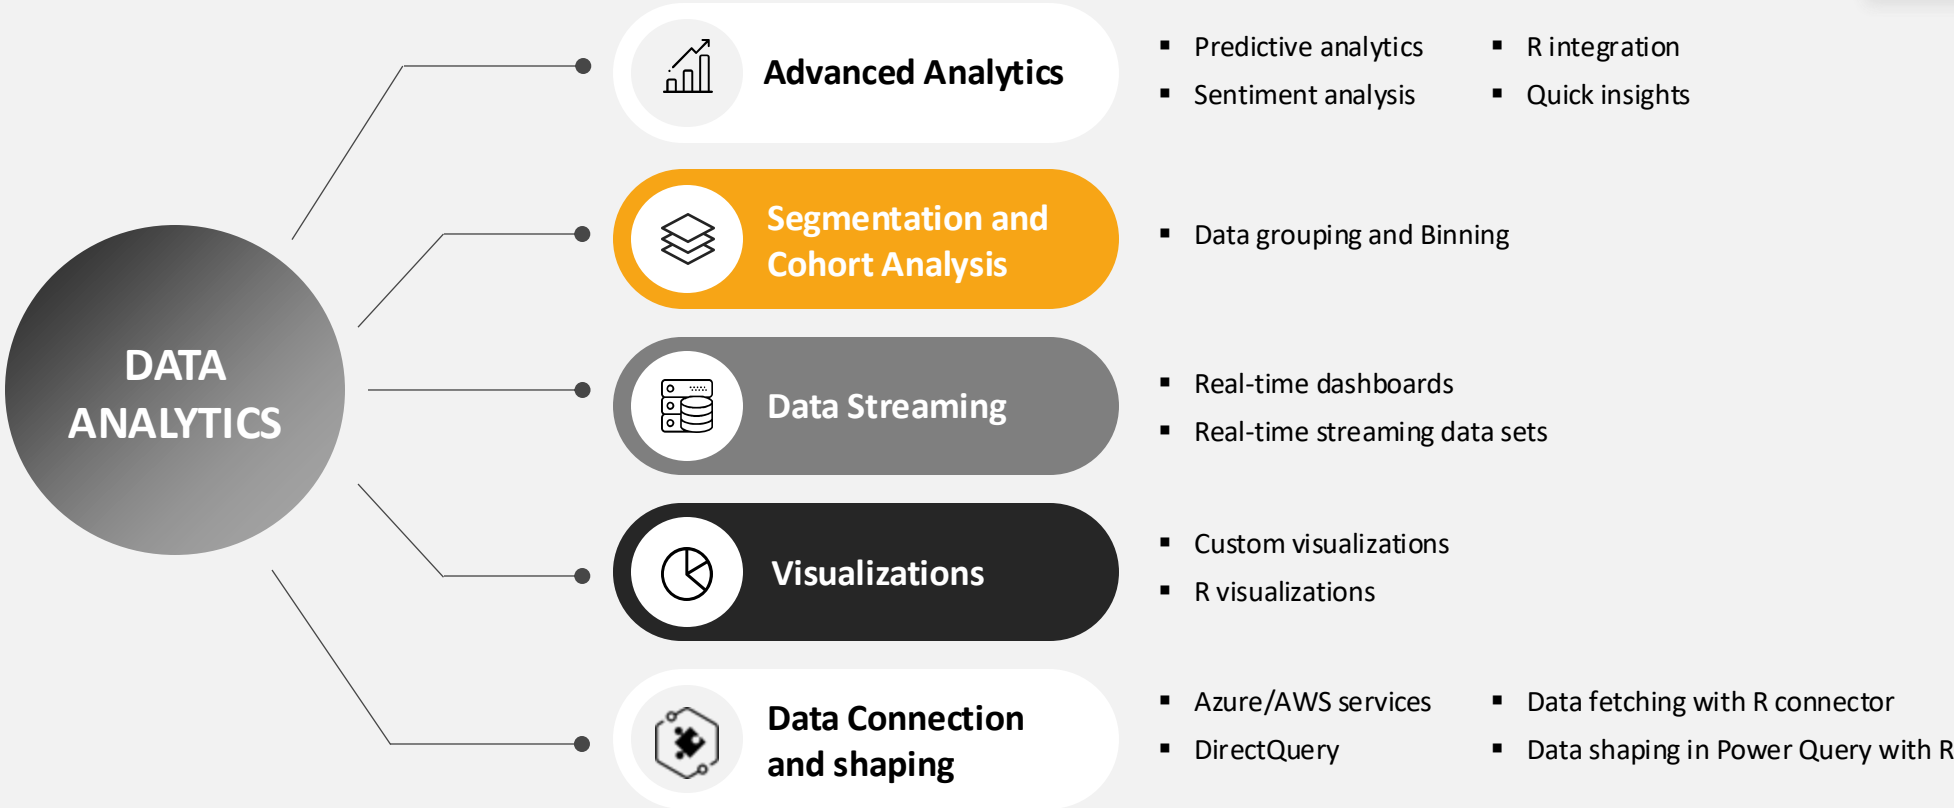

Transform auditing processes, modernize inventory management, and save on dispatch costs.

Frontline workers

Give workers the apps they need to increase efficiency- on desktop, mobile, shared devices or in Microsoft Teams.

Microsoft Power BI

We offer comprehensive Microsoft Power BI services designed to help businesses unlock the full potential of their data. From data visualization and reporting to advanced analytics and AI-driven insights, our Power BI solutions empower organizations to turn raw data into actionable intelligence.

Tailored Power BI Solutions

Transforming Data into Actionable Insights for smarter decision-making.

We offer Tailored Power BI solutions designed to meet the specific needs and objectives of each client. Our Service Scope Includes:

Data Visualization

Visually compelling reports and dashboards, to transform raw data into actionable insights that drive informed decision-making.

Advanced Analytics

Empowering businesses with predictive analytics and statistical analysis through Power BI.

Data Modeling

We create efficient data models tailored to business goals and seamless analysis.

AI Integration

We use AI and ML in Power BI for predictive insights and proactive decision-making.

Data Connectivity

We integrate diverse data sources, both on-premises and cloud-based, for comprehensive analysis in Power BI.

Training and Support

We offer training and support to empower your team in using Power BI effectively.

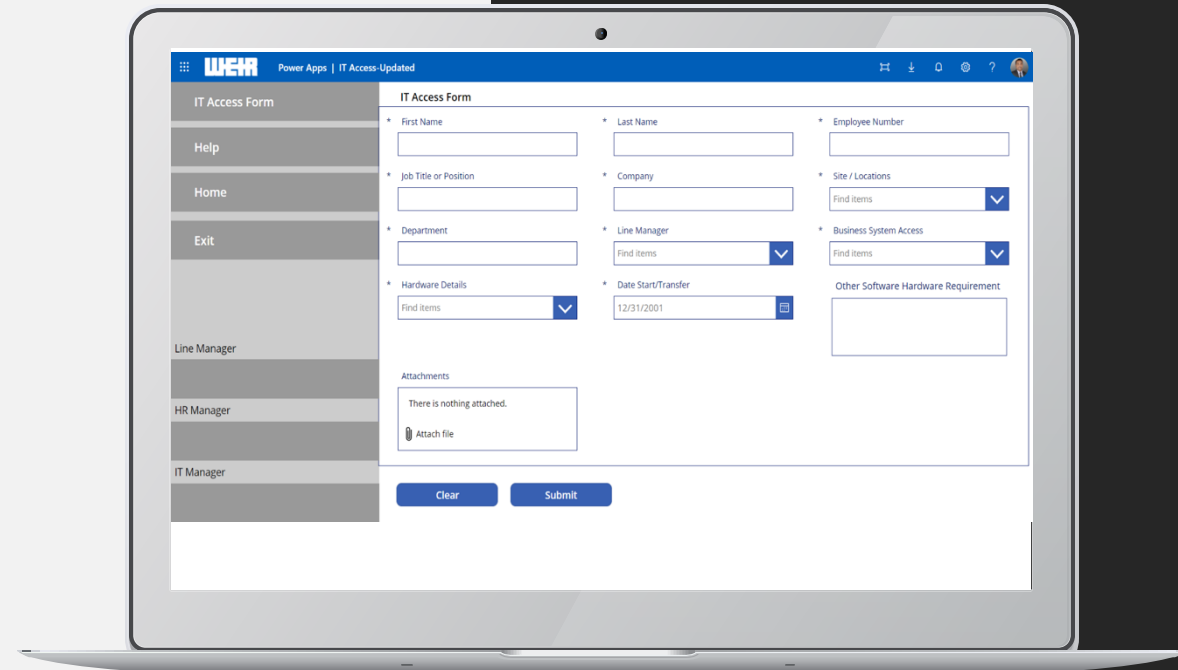

Streamlining Operations at WEIR: Power Apps and Power Automate Implementation

Solution

Power Apps, Power Automate, MS Office

WEIR, a global mining technology leader, improved efficiency by implementing Power Apps and Power Automate with Zelite Solutions. User-friendly forms streamlined data collection, while automated workflows reduced delays. Integration with SharePoint centralized data, enhancing transparency.

- Custom Power App forms offer user-friendly interfaces for data collection and task initiation.
- Power Automate workflows handle approvals, data routing, and tasks based on set rules.
- Power Apps forms on SharePoint ensure secure data storage and easy access for authorized users.
- Real-time process tracking for better visibility to the status of approvals, requests, and overall workflow progress.

Streamlining Operations with Power BI: A Case Study for Cooper Enterprises

Cooper Enterprises struggled with fragmented data in Dynamics 365 F&O and Supply Chain, affecting real-time insights. Zelite Solutions resolved this by integrating data into a warehouse and using Power BI for dashboards and reporting, providing comprehensive, real-time insights to enhance decision-making and operations.

- Data Warehousing
- Power BI Implementation

- Production Planning
- Inventory Management
- Sales Performance
- Financial Performance
- Supplier Performance

Solution

Developed Power BI Dashboard, Power BI Reports

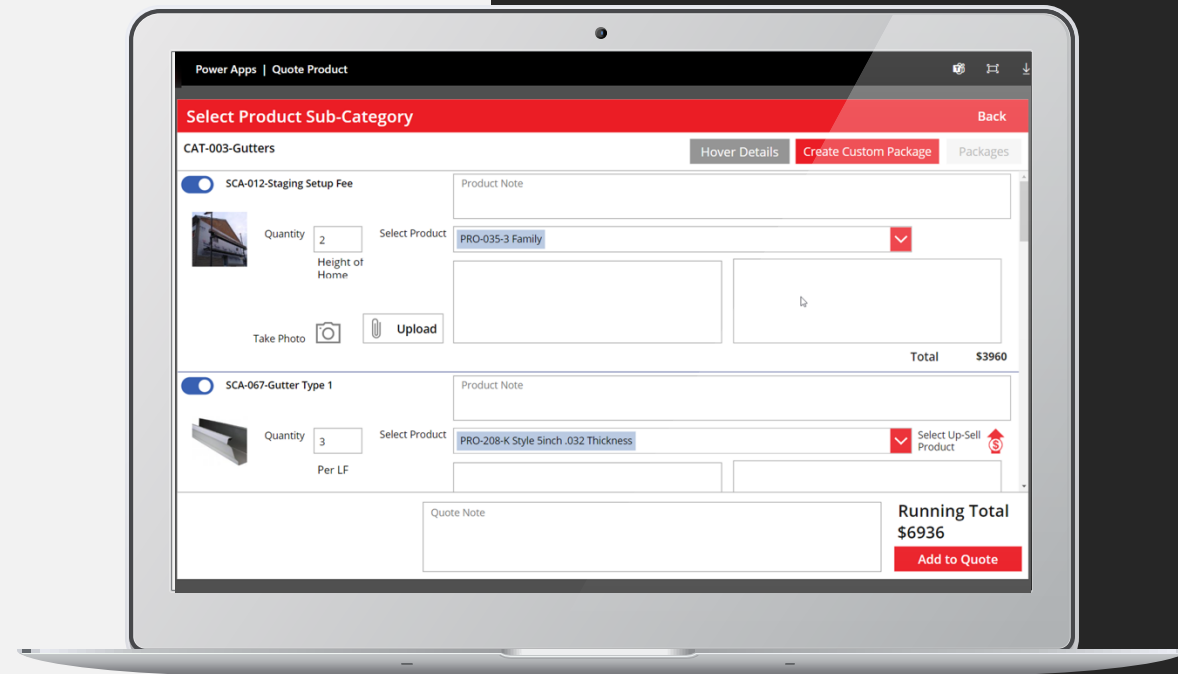

Streamlining Operations with Power Apps, Power Automate, and Dynamics 365

Solution

Dynamics 365 Sales & Field Service, Power Apps, Integration with DocuSign, Geo Tag, and Hoover

Couto, a home renovation leader, streamlined operations with Zelite's Microsoft solution. Dynamics 365 Sales & Field Service managed leads and appointments, while Power Apps & Power Automate automated workflows, and Power BI provided advanced analytics.

- Dynamics 365 Sales improved customer management with mobile access and desktop tools for leads and reporting.
- Dynamics 365 Field Service streamlined work orders, scheduling & crew management with mobile and desktop tools.
- Custom Power Apps & Power Automate workflows automated tasks, reducing workload and streamlining operations.
- Advanced analytics and dashboards, enhancing data-driven decision-making & performance monitoring.

Streamlining Healthcare Insights with Power BI: A Case Study for Concentra

Concentra enhanced data analysis with Zelite Solutions' Power BI integration, providing interactive dashboards on division performance, doctor productivity, financials, patient trends, risk management, and satisfaction for better decision-making.

Data Integration

Power BI unified Concentra's healthcare data from various sources into a centralized platform, enabling easy access and analysis.

Interactive Dashboards and Reports

- Division Performance
- Evaluate Doctor's performance
- Financial Insights
- Performance Score
- Monitor Patient's Trends
- Risk Management
- Patient Satisfaction Surveys

Solution

Developed Power BI Dashboard, Power BI Reports
